

Art. 982 Cast iron beam clamp "C"

Technical specifications and advantages

- Certificate
- For solid fastening to steel structures without welding or drilling
- Bolt with hexagonal head according to the DIN933, class 8.8, pointed screw with ring according to EN ISO 4753
- Hardened steel screw with hexagonal head, cone point, DIN 439 hexagonal nut, galvanised
- Material: clamp in cast iron, screw in hardened steel, nut in galvanised steel
