

Art. 6104 Steel anchor for heavy-duty anchoring with moulded eyelet

Technical specifications and advantages

- For concrete materials
- Made of galvanised steel

Code	Thread	Min. wall thickness (mm)	min. distance between fastenings (mm)	min. distance from the edge (mm)	Ø hole (mm)	Wrench (mm)	Length (mm)	Tension load (N)	Shear load (N)
6104006	M6	100	60	60	10	10	70	2400	1700
6104008	M8	100	68	68	12	13	80	4000	3100
6104010	M10	100	75	75	15	17	100	5500	5000
6104012	M12	130	98	98	18	19	120	8000	7200

Art. 6109 Steel anchor for high capacity anchorages with pressed hook

Technical specifications and advantages

- For concrete materials
- Made of galvanised steel

Code	Thread	min. distance between fastenings (mm)	min. distance from the edge (mm)	A (mm)	Ø hole (mm)	Wrench (mm)	Length (mm)	Tension load (N)
6109006	M6	60	60	8	10	10	60	700
6109008	M8	68	68	10	12	13	65	1800
6109010	M10	75	75	13	15	17	80	2600
6109012	M12	98	98	17	18	19	95	3500
