

Art. 73 Screws with AISI 304 washer and EPDM rubber

Technical features and benefits

- Screws with stainless steel washer and EPDM rubber for fixing solar panels to roofs
- Suitable for coplanar applications
- Material: steel screw with anti-corrosion treatment, AISI 304 stainless steel washer, EPDM rubber
- Excellent waterproofing properties
- For direct fixing to the roof or via brackets for corrugated sheet metal

Code	Dimensions [mm]	Features
7305525	5,5x25	Steel screw with anti-corrosion treatment
7306025	6,0x25	Bimetallic screw: AISI 304 and steel with anti-corrosion treatment
7306325	6,0x25	Steel screw with anti-corrosion treatment
7366325	6,0x25	Bimetallic screw: AISI 304 and steel with anti-corrosion treatment
